Do not have compatible kidney donor in your family for the Transplant?

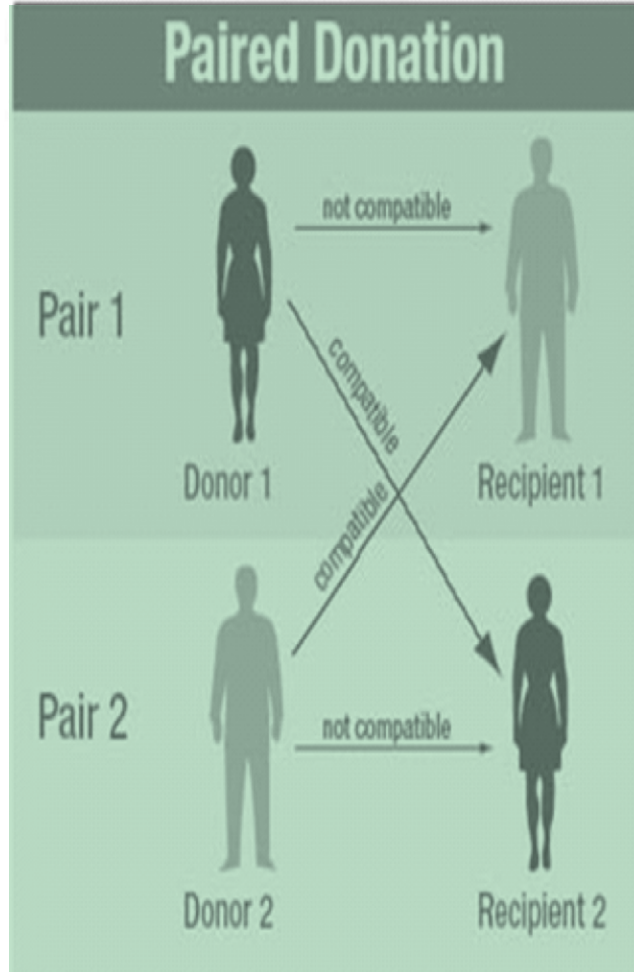

“MILAP”

Narmada Kidney Foundation

(Income-Tax Exemption Certificate under sec-80 G)

MILAP is the initiative of Narmada Kidney Foundation to help incompatible donor/recipient pairs. Here one incompatible donor/recipient pair is matched with another pair in the same situation for Kidney paired donation. The donor of the first pair gives kidney to the recipient of the second, and vice versa. In other words, the two pairs swap kidneys.

Swap transplant is a common practice in some centers, where 25 % of all living donor transplants are of this type. This helps people to get a Blood group compatible kidney for the transplant.

MILAP for Swap Transplant has given hopes to many. Life had become difficult for them without a compatible family donor. Things changed when they registered for Milap at Narmada Kidney Foundation.

Seeing your partner in pain is not easy. I was willing to donate my kidney to her the day I heard she needs one but our blood groups did not match. We registered for Milap at Narmada Kidney Foundation. Within a month we received a call My Joy knew no bounds We had been looking for a donor & this seemed like a Godsend.

*-Mr. Jerome
Donor of paired donation*

I am from Delhi. I was searching for a donor & my sister learnt about Milap. My search ended within a week & got transplanted in 20 days

*-Mr. Paramjeet Singh,
Recipient of paired donation.*

I would first thank God and then Narmada Kidney Foundation for their efforts put in for Milap

*-Mr. Gurnam Singh,
Recipient of paired donation*

डायलिसिस पे मैंने चार साल तक काफी रुपये और टाईम खर्च किया । अभी सबकुछ अच्छा है ।

*- Mr. Jay Tiwari
Recipient of paired donation.*

મે ગુજરાતમાં “મિલાપ” વિષે જાણ્યું. એક અઠવાડિયામાં જ મને યોગ્ય ડોનર મળી ગયો.

*- Mr. Atul Patel
Recipient of paired donation.*
